

Change in GP Service at CHEC

Due to the limited uptake of the GP service on Coffs Harbour Education Campus, it has been decided that we would discontinue the 'on campus' service.

CHC Medical Centre will continue to offer our campus priority bulk billing service if you outline that you are a staff member from CHEC. At present, there is only one GP that offers bulk billing service at CHC Medical. For further enquiry please contact CHC Medical via:

<http://www.chcmedical.com.au/>

Alternatively, we recognise that there are other GP bulk billing services in the local area that you may be interested in exploring.

Following are a list of GP's that bulk bill and others that bulk bill for certain patients.

Bulk Billing GPs:
